7/27/97, ele: ok, closed to 1998 report

P.O. Box 485

Re: 1997 Analytical Review File DWCCA-3680-RL

Dear Ms. Mitchell:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. During our review, we noted that the status for four schedules on the Schedule Listing in the electronic annual report were not changed from "not started" to "complete." It is important to change the status for all schedules, whether the schedule is left blank or not. That allows the PSC to determine that schedules have been finished, and, where left blank, were intentionally left blank rather than simply overlooked. Staff has changed all schedules' status to "complete" in our electronic copy. Please indicate if any "not started" schedules should have had data. If any schedules were not complete or should not have been blank, please provide that data.
2. During our review of the Meters schedule, page W-16, we noted your comment concerning meter testing. Please note that meter testing is required per Wis. Adm. Code s. PSC 185.87. Enclosed you will find a list of companies who will test your meters for you.
3. Paragraph No. 1 of our letter dated January 23, 1997, with regard to analytical review of the 1995 annual report, authorized a revised list of depreciation rates which were enclosed with that letter, to be effective on January 1, 1997. Based upon depreciation accruals on page F-7, lines 4-9, these revised rates were apparently not used during 1997. Enclosed with this letter is a copy of the new depreciation rates. Please confirm that these depreciation rates will be used beginning in 1998.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-1491. Please respond within 30 days of this letter. If we have no questions regarding your response, you
